

Agile Project Management Templates

Product backlog, sprint backlog, user story, burndown, retrospective and release plan

1. Product backlog

Rank	ID	User story or item	Value	Size (points)	Status	Notes

2. Sprint backlog

Sprint	
Dates	
Sprint goal	One sentence
Team capacity (points or hours)	

ID	Story	Points	Owner	Tasks	Status (To do / Doing / Done)

ID	Story	Points	Owner	Tasks	Status (To do / Doing / Done)

3. User story card

ID	
As a	type of user
I want	capability
So that	benefit
Acceptance criteria	Given / When / Then, one per line
Size (points)	
Priority	
Dependencies	
Notes	

4. Sprint burndown (record daily)

Day	Points remaining (ideal)	Points remaining (actual)	Notes
0			
1			
2			
3			
4			
5			
6			
7			
8			
9			
10			

5. Sprint retrospective

Sprint	
Date	
Attendees	

What went well	What did not	What we will try next sprint

Action	Owner	Due	Done?

6. Release plan

Release	
Target date	
Average velocity (last 3 sprints)	
Sprints remaining	
Points remaining in release scope	
Forecast	points remaining divided by velocity = sprints needed

Sprint	Dates	Planned scope (points)	Sprint goal	Forecast complete?

Sprint	Dates	Planned scope (points)	Sprint goal	Forecast complete?
