

Time Tracking Discrepancy Log

Discrepancy log, cause codes, correction form and payroll close checklist

Discrepancy log

Pay period								
Prepared by								

Date	Employee	Expected hours	Recorded hours	Difference	Cause code	Resolution	Fixed by	Employee confirmed

Cause codes

Code	Cause	Typical fix
MP	Missed punch (in or out)	Confirm time with employee and manager; correct with note
WP	Wrong project, task or cost code	Reallocate; no change to pay
BR	Break not taken but deducted, or taken but not recorded	Correct the deduction; check break policy
SC	Schedule and clock differ (early, late, extra shift)	Confirm with manager; approve or adjust; check overtime
DU	Duplicate or overlapping entries	Remove duplicate; keep the original
RD	Rounding error or inconsistent rounding	Apply the policy increment; review rounding rule
SY	System or sync failure	Restore from device log; report to vendor
OC	Off-the-clock work reported	Pay the time; address the cause with the manager

Approved by	

Employee: _____ Date: _____

Manager: _____ Date: _____

Payroll close checklist

- All missed punches resolved and confirmed by employee
- Schedule versus recorded exceptions reviewed and approved
- Break deductions checked against breaks actually taken
- Overtime recalculated after corrections (weekly, and daily where state law applies)
- Corrections logged with original value, new value, reason, who and when
- Employees notified of any change to their own records
- Discrepancy log filed with the payroll register
